1. Cover Letter

To: Hiring Manager, ABC Company

Subject: Job Application for Data Analyst Role

Dear Hiring Team,

I am writing to express my interest in the Data Analyst position at ABC Company. I have completed my Master's in IT (FinTech) and am currently pursuing a Data Analytics course at TOPS Technologies. I am deeply passionate about transforming raw data into actionable, useful information.

I possess a strong working knowledge of Python, SQL, Excel, Power BI, and Tableau. Recently, I completed a remote Data Analyst internship at Elevate Labs, where my responsibilities included cleaning daily datasets and creating interactive reports and charts. Additionally, my Software Development internship at Bluestock greatly enhanced my understanding of web development and team collaboration.

To further develop my practical skills, I built a project titled "Portfolio Optimization." For this project, I developed a web application using Python, Django, and MySQL. The application processes live financial data and generates dynamic charts and graphs to assist users in making informed decisions.

I am a quick learner who thoroughly enjoys solving complex problems with data. I would be thrilled to bring my dedication and analytical skills to your team at ABC Company.

Please find my resume attached for more details regarding my educational background and work experience. Thank you for your time and consideration. I look forward to the possibility of discussing this opportunity with you.

Best regards,

Tejas Shriram Kadam

2. Portfolio Introduction

Welcome to My Data Analytics Portfolio

Hello! My name is Tejas Kadam, and I am a Data Analyst. Thank you for taking the time to review my work.

I genuinely enjoy working with numbers and turning unstructured data into clear, useful information. I have completed my Master's in IT (FinTech) and am currently advancing my skills through a Data Analytics course at TOPS Technologies.

In this portfolio, you will find some of the best projects I have developed using tools like Python, SQL, Excel, and Power BI. Here are a few highlights of my journey so far:

- **Power BI Dashboard (TOPS Technologies):** I was selected to participate in an Industry Mentorship Event at TOPS Technologies. During this event, I built a detailed Power BI dashboard designed to present complex data clearly and facilitate decision-making.
- **Portfolio Optimization Web App:** I created a comprehensive web application utilizing Python and Django. This application processes real-time financial data and translates it into interactive visual formats, such as pie charts and line graphs, to help users better understand their investments.
- **Real-World Experience:** During my remote Data Analyst internship at Elevate Labs, I gained hands-on experience in cleaning daily raw data and generating impactful business reports.

I am always eager to learn new technologies and apply data to solve real-world problems.

Please feel free to explore my projects below.

If you find my work aligns with your team's needs, I would love the opportunity to connect.

Best regards,

Tejas Kadam

4. Experience Certificate Letter (Email Submission)

To: HR Department / Hiring Manager

Subject: Work Experience and Certificate – Elevate Labs (Tejas Kadam)

Dear Hiring Team,

I am writing to share the details of my previous work experience. I worked as a Data Analyst Intern at Elevate Labs from June 2025 to July 2025.

I have received the official experience certificate from the company, which I have attached to this email for your reference.

During my tenure at Elevate Labs, I successfully handled the following responsibilities:

- Managed daily data analytics tasks in a collaborative, shared workspace.
- Cleaned and processed daily raw datasets to extract actionable insights.
- Created interactive data visualizations and comprehensive reports utilizing the processed data.
- Consistently maintained version control by uploading completed tasks, code, and final reports to GitHub daily.

This experience provided me with a thorough understanding of the end-to-end data lifecycle, from processing raw data to delivering finalized visual reports.

Please find the attached certificate for verification. Let me know if you require any additional documentation.

Best regards,

5. Letter of Interest

To: HR Department, ABC Company

Subject: Interest in Data Analyst Opportunities – Tejas Kadam

Dear Hiring Team,

My name is Tejas Kadam, and I am writing to express my strong interest in joining ABC Company as a Data Analyst. I have been closely following your company's innovative work, and I am highly impressed by your continued growth and market presence.

I have completed my Master's in IT (FinTech) and am currently enhancing my skill set through a Data Analytics course at TOPS Technologies. I possess strong hands-on experience utilizing essential industry tools, including Python, SQL, Excel, and Power BI.

Recently, I completed a remote Data Analyst internship at Elevate Labs, where I specialized in cleaning daily raw data and developing visual reports to support the team. I also take pride in building practical, independent projects. For instance, I developed a live Portfolio Optimization web application using Python and engineered a detailed Power BI dashboard during an Industry Mentorship Event at TOPS Technologies.

While I understand there may not be an open Data Analyst role at this exact moment, I would love to be considered for any future opportunities within your team.

I have attached my resume to this email for a comprehensive overview of my background.

Thank you very much for your time and consideration. I hope to have the opportunity to speak with you soon.

Best regards,
